BELLHAN SOLUTIONS

CAPABILITY STATEMENT

COMPANY OVERVIEW

BellHan Solutions, LLC is a professional services company specializing in intelligence support to businesses across various industries. With a focus on enhancing National Security strategy, BellHan Solutions offers solutions such as intelligence analysis, IT, cyber support, and cleared personnel staffing

CORE COMPETENCIES

- Intelligence Analysis & Operational Support
- Professional Staffing & Staff Augmentation
- IT Solutions
- Cyber Support (AI/ML)
- Program & Project Management

DIFFERENTIATORS

We provide nationwide staffing for hard-to-fill positions including intelligence professionals and other cleared professionals.

Specialized Expertise: We possess niche knowledge in varying intelligence disciplines and specialized skills in areas of analysis some may not have in-house

Professional Network: Our industry relationships are strong and remain in intact. Through our vast professional affiliations and communities, we maintain "people" connections to support collaboration and integration of human capital demands.

Risk Reduction: Our comprehensive no-risk placement guarantee ensures that if you're not fully satisfied with a candidate, we will replace them free of charge.

PAST PERFORMANCE

Key Management Personnel: Our key management personnel have dedicated their careers to serving in various senior roles within the intelligence and defense sectors, bringing a wealth of knowledge in strategic operations, intelligence analysis, and mission support

Product Delivery: Extensive experience producing critical intelligence products tailored for senior government decision-makers, including the Chairman of the Joint Chiefs of Staff, the President's Daily Brief (PDB), and major combatant commanders engaged in OCONUS (Outside the Continental United States) operations.

Operational Excellence: Our personnel operate within a highly sensitive environment, maintaining operational readiness and ensuring seamless coordination with joint and allied forces. This critical support helps safeguard U.S. national interests by enabling the NMCC to maintain vigilant, around-the-clock oversight of global threats and military activities

Simplified Acquisition Threshold (SAT) listing

Under $250,000 (SAT) for Intelligence & Technical Professional Services

Intelligence Analysis & Reporting
- Timely analysis of signals, imagery, and open-source intelligence
- Production of intelligence reports and assessments

Cybersecurity Support & Vulnerability Assessments
- Vulnerability scanning and risk assessments
- Security posture evaluations for classified systems

Program & Project Support
- Assistance in managing intelligence-related projects
- Technical oversight and coordination for small-scale intelligence initiatives

Data Management & Collection Support
- Data curation, integration, and analysis for intelligence purposes
- Support for collection efforts in cyber and SIGINT domains

Briefings & Situational Awareness Products
- Custom intelligence briefings for senior leadership
- Situational awareness reports for operational planning

Under $25,000 (SAT) for Intelligence & Technical Professional Services

Briefing Development & Delivery
Customized intelligence briefings for operational or strategic decision-makers.

Ad-Hoc Technical Consultation
Short-term expert advice on intelligence analysis techniques or cybersecurity best practices.

Report Editing & Quality Review
Reviewing intelligence reports for accuracy, clarity, and compliance with standards before dissemination.

System & Hardware Troubleshooting
Providing troubleshooting or minor maintenance for secure communication and data systems.

Information Security Awareness Briefings
Conducting briefings to reinforce security protocols and best practices for handling classified information.

Rapid Response Support
Short-notice support for urgent intelligence or cybersecurity needs during critical operations.

Under $100,000 for Intelligence & Technical Professional Services

Comprehensive Intelligence Briefings
In-depth intelligence briefings tailored to operational or strategic needs, including threat assessments and situational updates.

Advanced Data Analysis & Support
Detailed analysis of signals, imagery, and open-source data to support ongoing missions and collection efforts.

Cybersecurity Risk & Vulnerability Assessments
Conducting detailed vulnerability scans and risk evaluations to identify weaknesses in classified or unclassified systems.

Technical Consultation & Support
Expert advice on intelligence collection techniques, cybersecurity best practices, and technical system integration.

Operational Planning & Mission Support
Assisting with mission planning, tasking, and execution support for intelligence collection operations.

Training & Knowledge Transfer Sessions
Customized training workshops on topics such as cyber defense, signals analysis, or data management for personnel.

Quality Assurance & Report Review
Reviewing intelligence products for accuracy, clarity, and compliance with standards before dissemination.

System Installation & Configuration Support
Assisting with the setup, configuration, and initial testing of secure communication and data collection systems.

Incident Response & Rapid Support Services
Providing immediate support during cybersecurity incidents or operational crises requiring quick technical or analytical intervention.

Threat Intelligence Monitoring & Advisory
Ongoing monitoring of emerging threats with regular advisory reports tailored to client needs.

Notes:
All services are designed to be flexible, targeted, and deliver high value within the Simplified Acquisition Threshold (SAT) limit.

Each service is provided at the appropriate clearances level, with confidentiality, and is tailored to meet the specific needs of agencies and clients within the SAT limit.
